Congratulations to the Class of 2014 on their excellent academic results in their Western Australian Certificate of Education courses. For the seventh consecutive year, 100% of our students graduated with a WACE. The Class of 2014 performed admirably with 56 students from a class of 65 also earning an ATAR – a rate of 87.5%. Additionally, an impressive 25% of students achieving an ATAR were awarded for their hard work throughout the year with an ATAR score higher than 90. It is pleasing to see our graduating students turning their hard work into commendable results. Well done!

Many of our graduating students are university bound, with 54 applying for a place at University. As a group, these tertiary bound students earned a median ATAR score of 80.75 and in addition 94% have been offered their first or second course preferences.

Our students have performed highly in individual subjects this year. Certificates of Commendation, which are awarded to students who obtain 20 A grades across their WACE exams, were awarded to Steven Bennett, Samantha Goerling, Tom Kerrigan, Chris Massey, Curtis Read and Avijoy Roy Choudhury.

Our vocational students have also achieved excellent results and leave us ready to share their skills with the workforce and grow through apprenticeships, job offers and further learning opportunities. We wish them all the best for this exciting new chapter of their lives.

Our graduating students can be proud to be remembered as a class who, although small, embraced many aspects of our School community during their time here, whether their beginnings started in Kindergarten, Primary or Secondary School. As a group they took advantage of the myriad of opportunities that our School has to offer including serving their community both locally and internationally. They represented our School in sporting, leadership, co-curricular and academic achievements and will be remembered as an inspiring group of students by those who follow in their footsteps.

During their time at our school our Class of 2014 have flourished, and we wish them every success in their future endeavours. Well done!

Mr Michael Giles
Head of School
Alex Stemp is taking a gap year and plans to study a double degree of Applied Geology and Environmental Biology at Curtin University in 2016.

Jordan Smith is taking a gap year before studying Science at The University of Western Australia (UWA).

Caitlin Reilly is studying Health Science at Curtin University.

Michael Hooper has been awarded the Fogarty Foundation Scholarship at UWA and is studying Assured Entry into Medicine via a Bachelor of Commerce at UWA. Michael has also been offered the Tenor 1 position in the WAYJO (WA Youth Jazz Orchestra) Swing Band.

Katelyn Lubcke has been offered the Principal’s Recommendation Scholarship to Curtin University.

Nicholas Stritof is studying a Certificate III Lab Assistant Course at SWIT which will lead into a traineeship at Iluka.

Maddy King is studying Early Childhood Education at Edith Cowan University.

Tiana Brown is studying a double major in Biomedical Science of Forensic Biology and Toxicology at Murdoch University.

Nell Mitchell is studying a Bachelor of Arts (Arts Management) at WAAPA. She has been awarded the ECU Excellence Scholarship at Edith Cowan University.

As our wings tremor in anticipation and prepare to fly, this nest looks smaller than it used to. I don’t think it’s shrunk, but rather that we’ve grown from the tiny little birds whose sole aim was to learn… Perhaps we’ll have a few crash landings when first learning to fly, and there will be days when the weather is against us and winds buffet us around, but we will become stronger and stronger until our wings propel us head on into the breeze. We will fly, we will soar and we will build our own nests.
